Federal Capital Territory

INVITATION:

The Nutrition Society of Nigeria invites Nutritionists, Dietitians, Food Scientists and other related professionals from Tertiary Institutions, Health Institutions, Research Institutes, Government Ministries, Departments and Agencies, Industries, Development Partners and Organized Private Sector and Non-Governmental Organisations (NGOs) to its 53rd Annual General Meeting and Scientific Conference scheduled to hold in Abuja, Nigeria.

ABUJA:

Abuja is located within the Federal Capital Territory (FCT) of Nigeria. It is a planned city known for its modern architecture, wide boulevards, and green spaces. It became the capital in 1991 due to its central location and potential for development. Abuja is home to many important government buildings and institutions and international organizations, making it a popular destination for international conferences and events. The city offers a range of accommodation options and is served by Nnamdi Azikiwe International Airport, connecting it to major cities across Africa and beyond.

Abuja is home to many important government buildings and institutions, including the Nigerian National Assembly, the Supreme Court of Nigeria, and the Nigerian Presidential Complex at Aso rock, which houses the residence and offices of the President of Nigeria. The city is also home to many local and international non-governmental organisations and is a popular destination for international conferences and events.

In 2019, the annual general meeting and scientific conference of the Nutrition Society of Nigeria (NSN) was successfully hosted in Abuja by the FCT chapter of the NSN, and in September 2023 the city is set to receive delegates and conference participants once again.

Welcome to Abuja 2023!

SUB-THEMES:

1. Enhancing leadership skills and competencies to drive transformational change in nutrition.
2. Promoting accountability and transparency in nutrition governance and leadership
3. Mobilizing resources and partnerships for sustainable nutrition interventions
4. Addressing equity and social inclusion in nutrition governance and leadership
5. Leveraging data and evidence to inform decision-making for improved nutrition outcomes.
6. Promoting sustainable, resilient, and affordable nutritious food systems
7. Encouraging innovation and entrepreneurship in the food industry to promote healthy food options.
8. Strategies to Promote behavior change communication for improved healthy food choices.
9. Strengthening the evidence base for effective maternal, child and adolescent nutrition interventions.
10. Promoting multisectoral coordination for effective implementation of nutrition policies and programs.
11. Applications of Food Composition and Dietary Assessment Data.
12. Novel approaches for preventing and managing diet-related non-communicable diseases.
13. Addressing food safety and hygiene to reduce the burden of foodborne illnesses.
14. Innovations to improve nutrition across the life-span and in special populations.
15. Creating a culture of mentorship for professional growth and development in nutrition
