## Comparing Generic and Brand Diazepam

Generic Diazepam matches the brand’s active composition while offering improved affordability. The difference lies primarily in pricing and manufacturer label.

Feature	Generic Diazepam	Brand Variant	Benefit
---------	------------------	---------------	---------

Composition	Same active ingredient (Diazepam USP)	Identical compound	Therapeutic equivalence
Average Cost	\$0.60 – \$1.00 per tablet	\$3 – \$5 per tablet	Significant savings
Availability	Continuous stock online	Varies by retailer	24/7 ordering access
Manufacturing	FDA-monitored plants	FDA-monitored plants	Equal quality standards

Choosing generic is a common way to reduce costs while staying fully compliant and safe.
